Glider kit for the Tri-ang R.562 Battlespace plane launcher car (1966-71)

Accurately cut out the three rectangles below so they align alongside each other. Cut out the circle in the centre section and fill with Coiled wire or solder. Then glue the L and R sides to the centre section using a pritt stick or similar. The carefully cut out the outline of the fuselage. Cut out the two slots with a sharp knife. Glue one main wing and one rear wing to 250 gsm card (cerial box), cut to shape. Then cut out the other two wings and adhere them to the back of the first two to form the wing sets. Using a grey felt pen colour the edges. Now slide them into the slots cutout in the fuselage. You should now have a faithful representation of the original glider supplied by Tri-ang. Paint if required.
